

PRO PIPE

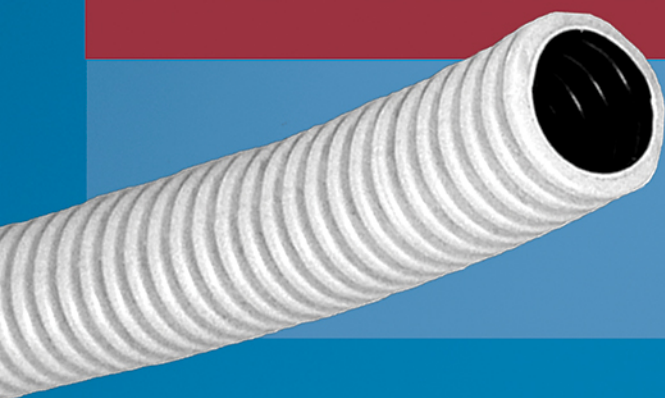

FLEXIBLE DRAIN HOSE

Pro Pipe's range of Premium Quality Flexible Drain Hoses are designed to fit an array of different applications.

We offer three different styles including standard corrugated, smooth bore and insulated drain hose to make your Mini Split install easier, no matter the environment.

FLEXIBLE DRAIN PIPE - STANDARD CORRUGATED

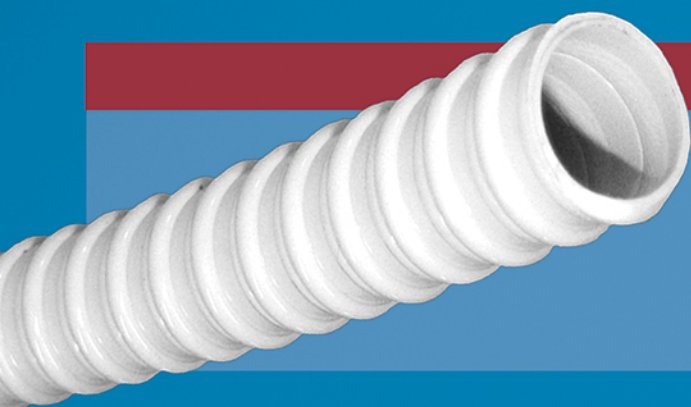

PART NO.	LENGTH	PIPE SIZE
----------	--------	-----------

FDP16	50m roll	16mm
-------	----------	------

The standard flexible drain pipe is perfect for most back to back mini split installations.

*Not to be put into situations where it cannot be accessed or removed for cleaning. Such as stud/cavity walls.

FLEXIBLE DRAIN PIPE - SMOOTH WALL

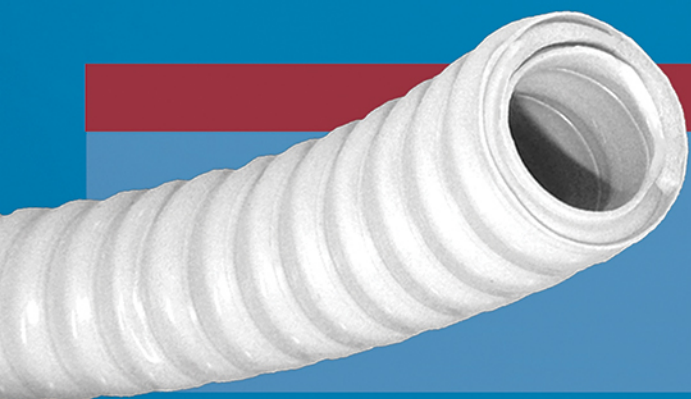

PART NO.	LENGTH	PIPE SIZE
----------	--------	-----------

FDPS16	25m roll	16mm
--------	----------	------

The smooth flexible drain pipe is heavy duty and prevents anything building up inside the pipe.

i.e. Specified by consultants

FLEXIBLE DRAIN PIPE - INSULATED

PART NO.	LENGTH	PIPE SIZE
----------	--------	-----------

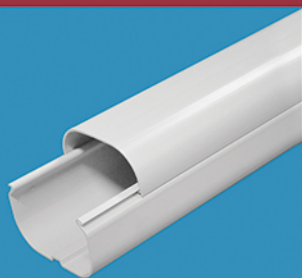

FDPI19	20m roll	19mm
--------	----------	------

The insulated flexible drain pipe is designed for applications where sweating can occur.

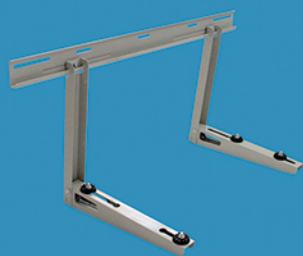

i.e. Tropical zones, High Humidity zones
