

FLARING TOOLS

BD14545 **Eccentric Cone Flaring Tool** 1/4"-3/4"
BD15545 **Drill Drive Flaring Tool** 1/4"-3/4"

Black Diamond Flaring Tools are made of light weight strong aluminium, the total weight is reduced by more than 40% compared to regular flaring tools. Quick and easy to use, the titanium finish on the flaring cone makes it last much longer and debris cleans easily from the cone. Comes complete with pipe locator to guarantee consistent flares.

MULTI SIZE EXPANDER KIT

BD13800 1/4" PATENTED
3/8" • 1/2" • 5/8" • 3/4" • 7/8" • 1" • 1"-1/8"

The Black Diamond Expander Kit comes complete with 8 different head sizes including the worlds first 1/4" head saving time over traditional swaging tools. Both the handle and heads are made of light-weight strong aluminium making it easier to get precise results.

QUICK ACTION TUBE BENDERS

BD12106 - 3/8"
BD12108 - 1/2"
BD12110 - 5/8"
BD12112 - 3/4"
BD12114 - 7/8"

- Strong aluminium bending former makes it easy to remove bent tubes without damaging.

MULTI SIZE TUBE BENDER

BD12999
1/4" • 5/16" • 3/8" • 1/2" • 5/8" • 3/4" • 7/8"

MINI TUBE CUTTERS

Black Diamond tube cutters are made from light-weight strong aluminium, they have spring systems to help keep pressure while cutting. The cutter wheels have a titanium coating for increases efficiency and durability.

BD11112
1/8"-5/8"

- Our smallest tube cutter

BD11166
1/8"-7/8"

- Great for working conditions where space is limited

MEDIUM TUBE CUTTERS

BD11288
1/8"-1 1/4"

- Worlds first ever spring loaded tube cutter
- Good size for most working conditions
- Easy to grip and smooth to turn
- Spare cutter wheel included
- Titanium coated cutter wheels

BD11382
1/8"-1 5/8"

- Slightly larger than the BD11288
- This model has the same design but will cut up to 1 5/8"
- Spare cutter wheel included
- Titanium coated cutter wheels

HEAVY DUTY TUBE CUTTER

BD11388
1/4"-1 1/4"

- Our flagship cutter, 6 ball bearing rollers and a ball bearing blade.
- This tube cutter is also outlined with a double spring design.
- This creates an extremely smooth cutting motion and can cut stainless steel pipes up to 3mm in thickness.
- Spare cutter wheel included
- Titanium coated cutter wheels
